A FRESH APPROACH TO DETAILING

Mighty Black Trim Restorer

DESCRIPTION:

Mighty VS7 Mighty Black Trim Restorer restores faded plastic and protects against acid rain, sun damage, chalking and detergents. Mighty Black is a low viscosity coating that cures at room temperature. May be used on vinyl, polystyrene, rubber and polyvinyl chloride. Restore bumpers, truck beds, RV trim, car carrier trim and other plastic, black and grey surfaces that are exposed to fading.

FEATURES:

- VOC Compliant
- Easy spray application
- Resists acid rain, detergents, fading and chalking
- Lasts up to one year or more
- Cures in 90 minutes (depending on climate conditions)

AVAILABLE SIZE(S): (12) 2 oz DL3201

DIRECTIONS:

SHAKE WELL BEFORE AND CONTINUOUSLY DURING USE. It is normal for the pigment to separate and collect at the bottom.

NOTE: Excessive moisture will cause Mighty Black to gel if bottle cap is left open.

The surface which Mighty Black is to be applied to is to be CLEAN & DRY with no water spots. Either tape off painted or glass surfaces near to the application area or keep a wet microfiber close by to clean up any excess. Make sure to wipe immediately.

Apply a small amount of Mighty Black EVENLY to a clean, dry surface using an applicator pad or brush. Remove excess product. Allow to dry on surface 90 minutes, depending on climate conditions. Depending on the condition of the surface Mighty Black is being applied to, the surface may require a second coat.
