

Utilizing **ADVANCED CERMILON®**
Fluoro-Ceramic™ Technology!

Mighty VS7® Engine SHIELD™ is the most advanced comprehensive engine protection available.

Mighty VS7® Engine SHIELD™ provides engines unsurpassed protection above and beyond conventional, synthetic blend and full synthetic engine oils. The VS7® Engine SHIELD™ is scientifically engineered to reduce friction, increase horsepower, displace heat, support optimal performance and efficiency.

Features and Benefits

- Supports Increased Horsepower and Performance
- Reduces Metal to Metal Friction and Wear of Critical Engine Components
- Eliminates Dry Starts
- Displaces Heat
- Extends Engine Life
- Reduces Thermal Breakdown of Lubricants
- Reduces Oil Consumption
- Will Not Affect Manufacturers Limited Warranties

Mighty VS7® is compatible with all oils, and works especially well with the new 0 weight synthetics!

Works well in gasoline and diesel engines, and will not void manufacturers warranties!
