

Synthetic 2-Step Transmission Service

PART #SB100

Mighty VS7® Synthetic Transmission Flush & Fluid Protectant Kit is a complete, 2-step service for the transmission. It can be used with or without flushing equipment and will produce noticeable results in performance. The unique synthetic technology is safe for internal clutch and seal surfaces.

Step 1 Cleans the system.

Step 2 Protects internal transmission parts, reduces heat build-up and extends fluid life.

KEY FEATURES

- ◆ Releases deposits, corrosion, varnish and other contaminants
- ◆ Will not clog filters or affect seals
- ◆ Contains NO alcohol, mineral spirits or harsh solvents
- ◆ Step 2 instantly eliminates torque converter shudder
- ◆ Improves shift quality
- ◆ Compatible with all OEM recommended transmission fluids
- ◆ Will not affect manufacturers' warranties

KEEP IT CLEAN

FOR IMPROVED PERFORMANCE AND PROFITS
