

Syntramax® Complete

Fuel System Cleaner

PART #SB304

The highly advanced technology of the **Syntramax® Complete** fuel tank additive for gasoline engines provides the maximum in fuel system cleaning by removing fuel-related deposits in modern fuel injection systems. It also helps reduce the need for high-octane fuel, restoring power and performance.

KEY BENEFITS

- ◆ PEA formulation
- ◆ Cleans fuel and combustion systems
- ◆ Cleans fuel injectors/carburetors
- ◆ Cleans emission control system components
- ◆ Reduces HC, NOx and CO emissions
- ◆ Cleans engine combustion chamber and intake valves
- ◆ Catalytic converter and oxygen sensor safe
- ◆ Reduces hesitation, surging and stalling
- ◆ Helps restore lost performance
- ◆ Cleans complete fuel system in just one tank
- ◆ Treats up to 18 gallons of fuel
- ◆ Helps pass emissions testing

KEEP IT CLEAN

FOR IMPROVED PERFORMANCE AND PROFITS
