

**Mighty****VS7** Product

# Total Intake System Cleaner

**SB300**

PACKAGE 10 ounce cans | 12 per case

## Top Selling System Cleaner with Improved Formulation!

Mighty VS7 Total Intake System Cleaner has been UPDATED with a NEW FORMULATION to include PEA (polyether amine)! It can be used in both gas and diesel engines.

It safely and effectively removes carbon build-up in the upper engine and intake system from the plenum to the catalytic converter and needs no special equipment application tools.

### Key Features

- + Technician controlled flow cap
- + 5-10 Minute Service Time
- + Removes carbon deposits
- + Cleans intake valve seats and compression chambers
- + Reduces emissions
- + Cleans oxygen sensors
- + Helps return compression to factory levels

### Applications

Can be used on ANY Gasoline OR Diesel Engine!

Can be applied through positive vacuum, MAP sensor or Throttle Body! Recommended once per year or 15,000 miles.
